About DIMR:

The intention behind imparting education is to pass the values, rules and concepts to generations to come. We, at DIMR, implement an exploratory learning process wherein teachers and students are co-travelers in the search of 'Understanding of Knowledge'. In our approach, we do not want to label anything as a 'Final Answer'; we believe in triggering the curiosity in the minds of students, and we firmly believe that the rest happens in its own accord.

DIMR is approved by AICTE – New Delhi and is affiliated to Savitribai Phule Pune University; with an intake capacity of 180 for MBA and 120 for MCA students.

About MCA:

The M.C.A. program is a full-time two years Master's Degree Course of Computer Application. The course emphasizes on the study and creation of business applications, rather than just programming and learning other concepts. Inclusion of projects in each semester improves student's technical orientation, understanding of IT environment and domain knowledge. Subjects such as ERP, Information Security and Business Intelligence work as new application domains. Major focus is also given on Mobile technologies so that student can choose Mobile Technologies as their career options. Advanced Internet and Web technology includes variety of new technologies. Subjects such as ERP, Information Security and Business Intelligence work as new application domains.

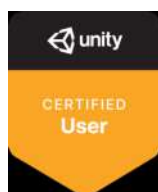

Key Features:
